THE HON. W. J. BRYAN

Has No Use For the Working
Potter.

HE WAS MUCH IN EVIDENCE

When the Ways and Means Committee
Investigated the Crockery Schedule of
the Wilson Tariff—He Made It Warm
For Those Who Testified.

The Hon. William Jennings Bryan, he who was nominated for the presidency last week in Chicago, has no use for the operative potter, and on more than one occasion his enmity toward the industry that is the life and health of East Liverpool has been clearly shown.

The place was Washington, and the time that disastrous summer of 1883. Potteries were closed, and hundreds of potters walked the streets of East Liverpool and Trenton vainly seeking employment. For months the blight had been upon the industry. The Democrats had control of every department of the government, and the people expected to see a lower tariff enacted in the very near future. Merchants refused to buy, and those who did buy were unable to pay for what they ordered. Trade was dead, and no work was being done. After this condition had continued for several months the announcement was made that a new tariff bill would be formed, and Sept. 16 was set apart as the day for the committee to hear what the potters had to say.

Among those who had gathered in Washington to plead for the retention of the duty on crockery were Henry Brunt, a manufacturer of Baltimore, and Fred A. Walker, an operative potter of Trenton. Mr. Brunt read a lengthy argument to the committee in which he asked that the duty be retained because any reduction in duty meant that the burden would fall upon the workmen employed in the potteries. He entered into the details of the business, and clearly showed how the tariff affected the wages of every man in his employ. Among the men who sat as members of the committee was Hon. W. J. Bryan.

At that time he was a congressman from Nebraska, and had developed such a tendency toward free trade that the speaker did not hesitate to make him a part of Wilson's committee. He was not appointed to that important place because of his ability as a financier or any great manifestation as a patriot; but simply because he wanted the McKinley bill smashed, and so did President Cleveland. Bryan listened for a time to what Mr. Brunt had to say, and then began asking questions. Some were senseless, others useless, and a few contained the elements of reason. They were in marked contrast with the intelligent questioning of such men as Reed, Tarsney and Stevens, and clearly showed that the gentleman from Nebraska was more anxious to waste time than he was to gain knowledge. After he was through with Mr. Brunt, he practiced the same tactics upon others who appeared before the committee. His particular game, however, was Fred A. Walker, one of the most intelligent and best known operative potters of Trenton.

He made a statement, answered a few questions put by members of the committee, and was then turned over to the tender mercies of Mr. Bryan. Among other things Mr. Bryan said:

"You speak from the standpoint of an operative. I want to ask you what you think of this proposition. Do you believe that a reduction of the tariff would reduce the price of goods? That is, would the manufacturer have to sell the goods for less if the tariff was reduced?"

Mr. Walker—Yes, sir.

Mr. Bryan—Do you think the price would bring a reduction to the laborer in wages?

Mr. Walker—Most assuredly.

Mr. Bryan—Have you any knowledge, or have you any computation showing whether you have received better wages than those working in other unprotected occupations, like farming?

Mr. Walker—Yes, sir.

Mr. Bryan—What right have you to ask a man working in Nebraska in competition with the cheapest laborers in the world and at less wages than you receive, to pay more for what he buys in order that you may get more wages than he?

Mr. Walker—I don't think my wages ought to be brought down on account of that man receiving lower wages. I would rather see the standard of that man's wages raised so that the man in Nebraska should get better paid in order to enable him to pay the extra price for his crockery.

And so the questioning went on, Mr. Bryan, apparently, having no other idea

than that the potter should receive low wages because the farmers of Nebraska could make no more than \$18 per month. Just why he argued upon this point and attempted to inject his free trade ideas into the persons he questioned, he failed to explain. Perhaps his explanation would not look well in print, and with all his peculiar ideas he still possessed a sufficient knowledge of the political world to know that they might appear to haunt him at a most inopportune moment.

The pottery industry should exhaust every effort to defeat Bryan at the polls next fall. He has no use whatever for the people who make their daily bread while making pottery. Their wages are higher than those of farmers of Nebraska, and instead of attempting to lift the latter to a higher plane he would pull down the potter. Mr. Bryan may come to East Liverpool, it is said that he will, and if he does he should have the pleasure of exercising those vocal organs, of which we have heard so much, in the presence of an audience made up of vacant chairs.

A GOOD TEAM.

The Eclipse Club Is Made Up of Good Material.

The Eclipse team left on the afternoon train yesterday, taking with them the following players: Davis and Baxter, catchers; Lynch and Webber, pitchers; McNicol, short; Heckathorne, first; Kennedy, second; Godwin, third; Twaddle, left; McCurran, middle; Hester, right; McCullough, substitute. The club will play six games before they return, and if they are successful in winning half of them they will be satisfied. The Marietta and Parkersburg teams are considered to be the best teams in that section of the state.

The Imperials were defeated by the E. S. Kellys yesterday by a score of 15 to 14, although they would have won had the players given Allison, their pitcher, the proper support. The only feature of the contest was the yellow fielding of Red Shay, who had six errors out of seven chances.

Finch, Gill, Gillespie and Guthrie left this morning for Lisbon, where they will play ball against the Malvern and Carrollton teams.

The Pittsburg Times has the following to say of "Dicky" Padden's work yesterday with the Pittsburg team: "Padden played his first championship game with Pittsburg yesterday, and was well received by the crowd. He didn't have so very much to do, but gave evidence of ability to cover a heap of ground. Boston got a base hit on a close play at first on one of Padden's assists when almost everybody had thought the youngster had thrown the runner out. Judging from his work yesterday, Padden will do."

Percy Albright has received an offer from the Sistersville team.

THEY WERE FORGIVEN.

An Eloping Couple Received With Open Arms.

The Pittsburg papers of today tell the story of the elopement of Count Komarowsky and Miss Lillian De Arma, the wedding having been performed in this city, and noted in the NEWS REVIEW last week. The count says he is of noble blood, and his father is a famous physician at the Austrian court. He was at one time a professor of music in the University of Virginia, but is at present playing the piano in a restaurant. Mrs. De Arma objected to her daughter marrying the count, and the course of their true love was anything but smooth. After the marriage they were forgiven, and all is now peace in that household. The count insists on taking his bride to Europe, and presenting her at court. He says he has a fortune, and that it will be brought to this country by his brother. A sister of the young woman also eloped and was married a few months ago.

HE WANTED MCKINLEY.

A Drunken Individual Amused the Anglers.

A postal received from the Anglers states that they arrived at Harmon on Tuesday evening, after a day of ideal traveling. The town of Harmon is smaller than Calcutta, but on the evening they arrived a drunken individual had been arrested for trying to shoot a man. He was confined in a shop across the street from where the Anglers were stopping, and made night hideous by calling on the friends of William McKinley to come and rescue him.

J. J. PURINTON IS IMPROVING.

Word received from John J. Purinton last night says he expects to be out in two weeks, and the physicians say his condition could not be more favorable than it is at present.

To Build a House.

George Brunt is having plans drawn for the erection of a dwelling house on Fifth street.

THE SQUIRE'S VERDICT

George White Came to His Death by Unknown Means.

CLARENCE MAYLONE TESTIFIED

He Had Been With the Dead Man, But His Story Shed No Light on the Mystery—It May Never be Known How White Died.

"Deceased came to his death by means unknown to the acting coroner."

That was the verdict rendered by Squire Manley last night, after he had gathered all the available information bearing upon the death of George White. It means just what it says. White might have been murdered, or he might have been run down by a train, the coroner does not know, and the evidence will not permit him to express an opinion.

Clarence Maylone was the last witness examined, and he said: "I met George White on Second street, near Joe Hauck's place, about half past eleven, and we went up to the Diamond to get a drink of water. We did not call anywhere from the time of leaving Hauck's until we got to the Diamond. We then went up Sixth street, back of the china works, and George went up on the hill and went to sleep. He was asleep about 10 minutes. We came back to Sixth street, and remained in the Diamond about 15 minutes. We went down Sixth street to Jefferson, and I went into Joe Manley's, remaining there 20 minutes. George White, with the others, remained on the street until I came out. The names of the others are James Malone, Charles Coulson, Clark McClain and John Garvey. We then went to Coulson's corner, and down the switch to the glass works. I did not go down farther than the glass works, but remained there all night. I do not know where George White got any of his liquor that night. The passenger train went down before we got to the glass works. Before I went to sleep a train went up about 3 o'clock. George White had left before the train went up. I never heard anybody make threats against White." When asked where he got his liquor that night he said: "I did not have any."

The report of Doctor Hobbs and Doctor Clark gave a complete description of the wounds. There were two fractures, one at the base of the skull. The report ends with these words: "We believe the wounds were produced by a blunt instrument."

SHAMEFUL.

The Poor and Needy are Not Welcome to a Certain Church Organization.

A story, backed by reliable parties, comes to this office, which seems almost impossible and unworthy of belief, were it not proven to be a fact. An humble woman, the mother of a family; an honest and true woman, with nothing but her poverty to speak against her, made application to a church organization in East Liverpool, when a white sepulcher connected with the congregation objected and protested, despite the fact that she was vouches for by Christian women. The fellow will have cause to regret his meanness ere many months pass by. "The mills of the gods, etc." To make the case still more aggravated, it was a well known fact that the poor woman in question was converted at the late rink meetings, held under the auspices of the various churches of the city. Further than this, the lady's character has never been called in question.

FELL OFF THE PORCH.

But the Snake Met Death In the Kitchen.

A party of East Liverpool, boys who were in West Virginia on a bicycle trip, had an experience with a snake the other day. They were seated on a porch engaged in conversation with a charming young woman when a black snake, almost five feet long, dropped from the roof. The boys were scared, and so was the snake. It hastened through the house, but was caught in the kitchen, where it was finally killed. The room presented an awful appearance, the boys having thrown bricks and stones in the battle with the snake.

BETTER SERVICE.

East End People Would Have the Last Car Go Through.

East End people have an objection against the street railway, and there is a great deal of talk at present of starting a petition to have the company run the last car to the suburb. As it is, the car is run only to the power house, and no matter what kind of a night it is, the East End people have to walk the track to their homes, unless they manage to

catch the car leaving the Diamond at 12:12. Legal steps would be taken to compel the company to run the car through, but it cannot be done as the car is not scheduled.

WANT A PLANT.

Trades Council Has Strong Views on Municipal Light.

Trades council met in regular session last night, although there was not a large attendance present. The grievance committee appointed to look into the matter of non-union shoemakers doing work cheaper than union men made a report, and were instructed to continue their efforts to get the men into the union. The committee for Labor Day reported progress, and said they would have something definite by the next meeting night. Communications were received from a number of union cigar manufacturers thanking the council for their efforts in their behalf. The question of the city owning its own light plant was discussed freely, and the unanimous opinion of the council was that the city should own its own plant. A committee was appointed to go before council at its next meeting, and give them the views of Trades council, and urge upon them the necessity of pushing the matter until a light plant was erected. After considerable routine business was transacted, the council adjourned to meet the first Wednesday in August.

WASHED AVONDALE.

The Storm Cut a Few More Ditches In the Street.

The storm did not last long last night, but the rain fell in sufficient quantities to cause damage in this part of the country.

Avondale street was the bed of a torrent, and the condition of the road today is more wretched than ever. The passage way of Tanyard run at Minerva street was in danger of being clogged several times, but the garbage floated away, and the residents of the lower part of Wucher addition were saved a flood.

As usual the street railway suffered. There were small washouts innumerable, and it took one car the best part of two hours to make the trip from Wellsville. Water flowed over Jethro street in a flood, and West End people expected to see the remains of the culvert go over the hill, but the damage did not amount to much. The hill near Walker suffered severely, and there was a heavy slide on the lower side of the road.

RUSSELL IS DEAD.

An Unconfirmed Report Alarms Boston People.

BOSTON, July 16 [Special].—A report has just reached this city that William E. Russell, the brilliant ex-governor of Massachusetts, died this morning in Quebec. The report came over the Western Union wire, but has not yet been confirmed. Governor Russell was one of the most prominent Democrats in the country. When he left the city he was in excellent health.

KILNDRAWERS TO MEET.

There Are Rumors That a Demand Will be Made.

It is announced today that the kilndrawers will meet on Friday evening in Whittenberger hall for the purpose of forming an organization. Accompanying the rumor is a story that the men will ask \$1.50 a day in the near future. When questioned about the matter President Hughes, of the Brotherhood, said that he had heard nothing about it, and did not know the kilndrawers were thinking of asking an increase.

THEY WANT IMPROVEMENTS.

California Hollow Residents Will Petition Council.

Residents of California Hollow are complaining bitterly of the condition of the road in that part of the city. There are big ruts in the roadway, and at times it is almost impassable. It has been in bad condition for a long time, and property owners think they should receive some attention. The feeling has grown to such an extent that a meeting will likely be called, and a petition will be sent to council asking the improvement.

WE WILL SOON KNOW.

How Many School Children There are in Town.

The enumerators appointed by the school board a few weeks ago, were given the necessary papers today, and began work. It is the purpose of the board to have the census taken in the most complete manner possible, and they will soon be in possession of the desired information. There are more children here than could be counted a few years ago, and the work will necessarily take up more time.

EDDIE CROXALL TAKEN

The Police Got Him Early This Morning

IN THE HOUSE OF MATTHEW HAYES

The Man Objected to the Officers Entering His Place, but They Had a Warning—Croxall Was Wanted For the Williams Robbery.

The police captured another young man charged with highway robbery this morning, and only one of the suspects remains at large.

At an early hour the police received a quiet intimation that Edward Croxall had spent the night at the house of Matthew Hayes, near the trestle in West End. Chief Johnson hastily gathered Officers McMillen and Terrence, and arrived at the place shortly after 8 o'clock. They knocked on the door and Hayes appeared. The cause of their visit was explained, and Hayes refused them admission. It happened that the warrant calling for the arrest of Croxall was not in possession of

East End people have an objection against the street railway, and there is a great deal of talk at present of starting a petition to have the company run the last car to the suburb. As it is, the car is run only to the power house, and no matter what kind of a night it is, the East End people have to walk the track to their homes, unless they manage to

catch the car leaving the Diamond at 12:12. Legal steps would be taken to compel the company to run the car through, but it cannot be done as the car is not scheduled.

WANT A PLANT.

Trades Council Has Strong Views on Municipal Light.

Trades council met in regular session last night, although there was not a large attendance present. The grievance committee appointed to look into the matter of non-union shoemakers doing work cheaper than union men made a report, and were instructed to continue their efforts to get the men into the union. The committee for Labor Day reported progress, and said they would have something definite by the next meeting night. Communications were received from a number of union cigar manufacturers thanking the council for their efforts in their behalf. The question of the city owning its own light plant was discussed freely, and the unanimous opinion of the council was that the city should own its own plant. A committee was appointed to go before council at its next meeting, and give them the views of Trades council, and urge upon them the necessity of pushing the matter until a light plant was erected. After considerable routine business was transacted, the council adjourned to meet the first Wednesday in August.

WASHED AVONDALE.

The Storm Cut a Few More Ditches In the Street.

The storm did not last long last night, but the rain fell in sufficient quantities to cause damage in this part of the country.

Avondale street was the bed of a torrent, and the condition of the road today is more wretched than ever. The passage way of Tanyard run at Minerva street was in danger of being clogged several times, but the garbage floated away, and the residents of the lower part of Wucherer addition were saved a flood.

As usual the street railway suffered. There were small washouts innumerable, and it took one car the best part of two hours to make the trip from Wellsville. Water flowed over Jethro street in a flood, and West End people expected to see the remains of the culvert go over the hill, but the damage did not amount to much. The hill near Walker suffered severely, and there was a heavy slide on the lower side of the road.

RUSSELL IS DEAD.

An Unconfirmed Report Alarms Boston People.

BOSTON, July 16 [Special].—A report has just reached this city that William E. Russell, the brilliant ex-governor of Massachusetts, died this morning in Quebec. The report came over the Western Union wire, but has not yet been confirmed. Governor Russell was one of the most prominent Democrats in the country. When he left the city he was in excellent health.

KILNDRAWERS TO MEET.

There Are Rumors That a Demand Will be Made.

It is announced today that the kilndrawers will meet on Friday evening in Whittenberger hall for the purpose of forming an organization. Accompanying the rumor is a story that the men will ask \$1.50 a day in the near future. When questioned about the matter President Hughes, of the Brotherhood, said that he had heard nothing about it, and did not know the kilndrawers were thinking of asking an increase.

THEY WANT IMPROVEMENTS.

California Hollow Residents Will Petition Council.

Residents of California Hollow are complaining bitterly of the condition of the road in that part of the city. There are big ruts in the roadway, and at times it is almost impassable. It has been in bad condition for a long time, and property owners think they should receive some attention. The feeling has grown to such an extent that a meeting will likely be called, and a petition will be sent to council asking the improvement.

WE WILL SOON KNOW

How Many School Children There are in Town.

The enumerators appointed by the school board a few weeks ago, were given the necessary papers today, and began work. It is the purpose of the board to have the census taken in the most complete manner possible, and they will soon be in possession of the desired information. There are more children here than could be counted a few years ago, and the work will necessarily take up more time.

SALEM is as proud as a small boy with a new red wagon, and all because its enterprising business men have decided to hold a street fair.

THE free silver ranters are reiterating the arguments of the past. They have nothing new to offer. Their cause is old and decrepit, but they would have the world believe it is some new invention.

THE New York Sun and 50 other leading Democratic papers of the east and south are pouring hot shot into the old bark on which they sailed so long. She may come out of the battle without sinking, but the probabilities are against it.

MR. BRYAN AND THE POTTERS.

Mr. Bryan is not the friend of the potter. On the other hand he is enrolled among the enemies of the thousands dependent upon the pottery industry for a livelihood. When the potters needed aid Mr. Bryan was found on the other side. In the face of evidence showing the demoralized condition of trade and proving that thousands of operatives were out of employment, he turned his head the other way, and voted for a continuance of these unfortunate circumstances. He could not understand why a potter should expect more than \$18 a month, because his farmer friends of Nebraska were unable to realize more than that amount from their labors. His questioning of Mr. Walker clearly showed the drift of sentiment, and proved that Mr. Bryan was something other than an able statesman. Those were dark days for the American potter, and Mr. Bryan had an opportunity to make his name great in every pottery of the land. But he failed to grasp the situation, and the potters should not forget it. It is true the sentiment against the ticket nominated in Chicago is great, but it should be warmer now that the position of the principal candidate, as regards the crockery schedule of the Wilson law, is recalled. Not a potter, not a man dependent directly or indirectly upon the industry, should cast his vote for Bryan. There was a time when he had no use for them, and it is but right that they should now have no use for him.

The Largest Celebration Ever Known In Salem, Ills.—Much Enthusiasm Manifest—The Rain Delays the Proceedings. Mr. and Mrs. Bryan Hold a Reception.

SALEM, Ills., July 16.—It is doubtful if the natives of this town ever allowed their enthusiasm to bubble over to such an extent before. The scorching July sun had scarcely appeared above the horizon when the town was shaken by a thunderous cannonading of anvils, which were fired off at regular intervals from sunrise until noon day. This discharge of blacksmiths' artillery aroused the people to an unusual state of activity early in the day. Wagons loaded with farmers from the surrounding country began to arrive almost at daylight, and by noonday the hitching racks around the business center of the town and all the feed yards and livery stables were crowded. And they came in on excursion trains from neighboring towns and adjoining counties to take part in the great celebration to be given here in honor of William J. Bryan, the Democratic nominee for president, who, 36 years ago, first saw the light of day in this quiet, sleepy old country town.

People began to gather in the courthouse square, where a big stand had been erected for the speakers at the celebration, fully two hours before the time for the demonstration to begin. It was in this courthouse that Bryan, years ago, made his first political speech, and it was in this courthouse that his father for 12 years presided over the circuit court. On the platform along with the speakers who had been invited from all over the state to come and participate in the rejoicing of the people of Salem, were the mayor and council of the city and other distinguished citizens. The Hon. F. M. Kagi, who graduated in the same class with Mr. Bryan at Illinois college, Jacksonville, presided at the meeting.

While the hundreds of people who have come here to attend the Bryan celebration were assembling in the courthouse yard a big black cloud loomed up in the northward. It approached with frightful rapidity. It was an ordinary thunderstorm, but of unusual violence, and owing to the darkness, it caused a great deal of alarm. It was after 1 p.m. before the rain ceased. Then the crowd came out from the stores and other places of shelter and again began to gather in the courthouse yard. The numerous country bands that had come from the neighboring towns with Bryan clubs began to play.

A banner, upon which was fastened a portrait of the Democratic nominee, was placed on the platform. Beneath it was the motto: "Bryan Brings Silver and Success."

Mr. Kagi then said that he was happy to be able to present his old classmate, who had been made famous by being chosen to lead the Democratic party. Mr. Bryan needed no introduction. It was not only in Mr. Bryan's honor that the assemblage had come. It was to honor a principle dear to all Democrats. He concluded by paying an eloquent to Bryan. At each mention of Mr. Bryan's name the crowd cheered vociferously.

Mr. Bryan was then presented to the audience amid uproarious applause. Mr. Bryan in part said:

"This is the home of my birth, of my boyhood and my early manhood. Three blocks south I first saw the light of day. A mile to the northwest I lived until I was 23, and I shall never cease to be grateful to the parents who took me to the farm and there allowed me to develop the physical strength that is needed in the campaigns which we have to pass through. It was in this courthouse that I first gained the ambition to be a lawyer. It was in this courthouse that I made the first political speech I ever tried to make."

"There is an ideal plane in politics and we believe we stand upon it here today. We differ in opinion. We differ as to party policies. But we meet today, recognizing these differences, and yet each feeling a charity toward each other. We are all imbued with the same spirit. We all possess the same ambition. We are all living to carry out the same great purpose. We want a government of the people, by the people 'and for the people,' and though we differ as to the means of carrying it out, we can differ as honest citizens, differing in judgment and agreeing in purpose."

"I thank the Republicans who have assembled here. I thank the Prohibitionists. I thank the Populists as much as I do the Democrats, because at last, my friends, when these questions which arise from time to time upon the surface and disturb the thought and agitate the people have passed away we all agree in these great fundamental principles which underlie our form of government."

"But I must not talk to you. Permit me again and again to thank you for what you have done for me, for the words that you have spoken and the kindly expressions which I see on every face. We know not what may be the result of this campaign. We shall go forth and do our duty as we see it. But no matter what the result is, whether this campaign results in my election or my defeat time cannot rob me of the delightful recollection of the confidence and love of these citizens of my boyhood days. I thank you."

"Several local campaign orators, among whom were Congressman Williams, who was one of Mr. Sewall's rivals for the vice presidency, spoke when Mr. Bryan finished, after which the meeting adjourned."

Mr. and Mrs. Bryan shook hands with a large number of people after the meeting.

It was after 1 p.m. before the rain ceased. Then the crowd came out from the stores and other places of shelter and again began to gather in the courthouse yard. The numerous country bands that had come from the neighboring towns with Bryan clubs began to play.

A banner, upon which was fastened a portrait of the Democratic nominee, was placed on the platform. Beneath it was the motto: "Bryan Brings Silver and Success."

Mr. Kagi then said that he was happy to be able to present his old classmate, who had been made famous by being chosen to lead the Democratic party. Mr. Bryan needed no introduction. It was not only in Mr. Bryan's honor that the assemblage had come. It was to honor a principle dear to all Democrats. He concluded by paying an eloquent to Bryan. At each mention of Mr. Bryan's name the crowd cheered vociferously.

Mr. Bryan was then presented to the audience amid uproarious applause.

Mr. Bryan in part said:

"This is the home of my birth, of my boyhood and my early manhood. Three blocks south I first saw the light of day. A mile to the northwest I lived until I was 23, and I shall never cease to be grateful to the parents who took me to the farm and there allowed me to develop the physical strength that is needed in the campaigns which we have to pass through. It was in this courthouse that I first gained the ambition to be a lawyer. It was in this courthouse that I made the first political speech I ever tried to make."

"There is an ideal plane in politics and we believe we stand upon it here today. We differ in opinion. We differ as to party policies. But we meet today, recognizing these differences, and yet each feeling a charity toward each other. We are all imbued with the same spirit. We all possess the same ambition. We are all living to carry out the same great purpose. We want a government of the people, by the people 'and for the people,' and though we differ as to the means of carrying it out, we can differ as honest citizens, differing in judgment and agreeing in purpose."

"I thank the Republicans who have assembled here. I thank the Prohibitionists. I thank the Populists as much as I do the Democrats, because at last, my friends, when these questions which arise from time to time upon the surface and disturb the thought and agitate the people have passed away we all agree in these great fundamental principles which underlie our form of government."

"But I must not talk to you. Permit me again and again to thank you for what you have done for me, for the words that you have spoken and the kindly expressions which I see on every face. We know not what may be the result of this campaign. We shall go forth and do our duty as we see it. But no matter what the result is, whether this campaign results in my election or my defeat time cannot rob me of the delightful recollection of the confidence and love of these citizens of my boyhood days. I thank you."

"Several local campaign orators, among whom were Congressman Williams, who was one of Mr. Sewall's rivals for the vice presidency, spoke when Mr. Bryan finished, after which the meeting adjourned."

Mr. and Mrs. Bryan shook hands with a large number of people after the meeting.

Attention, Old Soldiers!

The manufacturers have instructed Bulger and Reed to give a bottle of 25 cent size of Foley's Colic and Diarrhoea cure free to the first soldier of the civil war that applies for same. It is the great remedy for Chronic Diarrhoea, Cramp Colic and all bowel complaints.

For sale at Bulger's and Reed's drug stores.

CHAIRMAN JONES' AIDS.

Not Ready to Appoint Them Yet—Favors Washington.

WASHINGTON, July 16.—Senator Jones, of Arkansas, chairman of the Democratic national committee, has been at the capital in conference with Senator Harris of Tennessee, on various matters connected with the prosecution of Mr. Bryan's candidacy. He said that the executive committee probably would not be appointed for ten days yet. The senator when asked about the life tenure of office plank concerning which there has been some question said that it was actually adopted as a part of the platform, but that the following clause "except as otherwise provided by the constitution of the United States," needed to be added to the plank, these words having formed part of it as adopted, but having been left out of the stenographic verbatim copy of the proceedings owing to a mistake.

Senator Jones says that he favors locating the national headquarters in Washington, but it will be for the committee to decide that point. In case Washington is determined upon, a large building, centrally located, will be taken for campaign work.

He said that he can give no intimation as to the personnel of the executive committee until he has conferred with several gentlemen. Among names generally mentioned are those of the members of the silver committee, viz: Senator Harris of Tennessee, Turpie of Indiana, Governor Stone of Missouri, and Mr. Hinrichsen of Illinois, who organized the silver movement up to the time of the convention.

SEWALL ARRIVES HOME.

The Candidate for Vice President Given a Reception at Bath.

BATH, Me., July 16.—Candidate for vice president on the Democratic ticket Arthur Sewall had his home coming to night, and it was of the warmest sort.

The formal welcome was entirely non-partisan. As the special train bearing Mr. Sewall came into the city at 7:15 fireworks were profusely burned, the church and city bells rung and a national salute fired by big guns. Thousands of people at the depot were provided with horns, and the vocal welcome made a din greater than ever heard here before.

Mr. Sewall was met at the depot

platform by Hon. F. H. Twitchell, president of the city council, Mayor Ribber having unexpectedly been called away. Mr. Sewall responded to a short welcome address.

SENATOR RAINES' OPINION.

ALBANY, July 16.—Senator John Raines, Republican, said if the regular Democratic organization of the state fails to certify Bryan and Sewall as the regular nominees of the Democratic party their names cannot appear under the Democratic star on the blanket ballot in this state, and, unless some independent party that has cast a vote of 10,000 at the last election endorses Bryan and Sewall or 1,000 people certify as to these candidates being their choice, their names cannot appear even as candidates of an independent faction. Senator Raines is the author of the present blanket ballot law.

Mr. Raines then said that he was happy to be able to present his old classmate, who had been made famous by being chosen to lead the Democratic party. Mr. Bryan needed no introduction.

It was not only in Mr. Bryan's honor that the assemblage had come.

It was to honor a principle dear to all Democrats. He concluded by paying an eloquent to Bryan. At each mention of Mr. Bryan's name the crowd cheered vociferously.

Mr. Raines was then presented to the audience amid uproarious applause.

MOTION TO BE HEARD SATURDAY

Miss McDole Entered Another Suit Against
the Street Railway Company—Judge
Smith Will Severely Punish Those Who
Break the Liquor Laws.

LISBON, July 16.—[Special].—No receiver for the East Liverpool & Wellsville was appointed in Youngstown yesterday afternoon.

When the writ was made out the person who did the writing neglected to take a good look at the calendar, and ordered the company to appear on Thursday, July 15. Now it happens that Thursday was the 16th, and the motion was to be argued on Wednesday. The company took advantage of the trivial mistake, and the motion was not argued, as no one appeared for the company, and the reason was explained. Judge Johnson set next Saturday afternoon as the time. There will be no error in the next writ.

Miss Maggie McDole, who recently got judgment for injuries received while a passenger in one of the cars of the street railway, has sued the company and the First National bank, of East Liverpool. The petition claims that the bank holds more than \$950, the amount of her judgment, belonging to the company, and she wants the bank enjoined from paying out any part of it until the judgment has been satisfied.

Sheriff Gill today appointed F. Q. Vones, of New Chambersburg, a deputy sheriff for a term of 18 months.

John Agner, Henry Bentz, John Herst, Henry Weible and H. O. Wunsch, trustees of St. John's Evangelical church, of East Liverpool, today asked permission to borrow \$3,000 to be used in the completion of the building now being erected by them in East Liverpool. They will secure the amount by a mortgage on the property.

Mrs. Rebecca Radcliffe, an aged woman of this place, wants a divorce from her husband, Thomas Radcliffe. They were married five years ago, and have lived but a short time together. She asks that her maiden name be restored.

Oscar Henderson, a Salem saloonist, plead guilty to selling liquor to a minor this morning, and was fined \$60 and costs, to stand committed to the works until the amount is paid. It is evidently the fixed purpose of Judge Smith to put a stop to illegal liquor selling in the county. He stated this morning when sentencing Henderson that he proposed to double the fine until the limit was reached, and then petition the legislature to raise the limit.

Dr. John P. D. John has been engaged by the Epworth Leagues of this city and Wellsville to deliver his famous reply to Robert Ingersoll, the great agnostic. During the short time this lecture has been before the public, it has attracted very wide attention, and has been everywhere recognized as one of the finest, most complete and logical answers that has ever been made in a public address to the arguments of Col. Ingersoll and those who attack the Christian system. The thousands who have heard it, unite in pronouncing this production a great masterpiece in thought and language. Friday evening, July 17, First M. E. church. Admission 25¢.

Next Excursion to the Sea.

Thursday, July 23, via Pennsylvania lines, from Steubenville, \$10 round trip, good 12 days, to either Atlantic City, Cape May, Ocean City, Sea Isle City, etc., the beaming resorts by the sea. Don't forget the date, July 23.

MORE METERS.

The light company have men at work today placing meters in business houses in several parts of the city. The majority of the company's customers now use meters.

You will miss the great treat of the season if you miss Dr. John's great lecture, "Did Man Make God, or Did God Make Man?" First M. E. church, Friday evening, July 17.

A LITTLE STRANGER.

The many friends of Doctor and Mrs. Norris are congratulating them today, because there arrived at the home a beautiful little daughter.

Tickets are going fast for Dr. John's great lecture, at the M. E. church, Friday night, July 17, and although the weather may be warm, indications point to a crowded house.

A great many people look healthy and are not. There are many forms of sickness which leave an outward mark on a person's health. This fictitious health is like a bubble that bursts at a touch. It is like an empty egg shell that the slightest pressure will crush. The outside of the body may look all right long after disease has begun its dreadful work inside. The human body which doesn't feel well, he had better be governed by the feeling not by the looks. A great many apparently strong and vigorous men collapse suddenly. They have what is known as nervous prostration. They go along persistently, day after day, working hard and thinking hard, apparently healthy, and some day they go home and go to bed and don't get up again. It can come gradually. A strong man can live in his strength and his health for a long time without apparent injury, but it isn't a safe thing to do. Whenever there is nervousness, or insomnia, or undue fatigue from ordinary work, when irritability takes the place of contentment, when a man isn't sick but doesn't feel quite well—it is the time he should begin to take Doctor Pierce's Golden Medical Discovery. It is the best tonic medicine and nerve food, or invigorator in the world. It assists digestion, stimulates the appetite, promotes thorough assimilation of the food, purifies the blood and adds to it the life-giving principles that are needed to feed the starved nerves. It puts the whole body into perfect tune, and stimulates each organ to do the work for which it was intended. Thousands of people have been brought back to happiness and vigorous health. Thousands of people have been cured of most serious sickness by this wonderful medicine. Druggists sell it.

Send 21 one-cent stamps to pay for mailing only, and receive free a copy of Doctor Pierce's great thousand page book, "Common Sense Medical Adviser," in paper covers, or send 40 cents for postage and extra cost of binding and get it in cloth. World's Dispensary Medical Association, Buffalo, N. Y.

NO RECEIVER CHOSEN

There Was a Slight Mistake
In the Papers.

MOTION TO BE HEARD SATURDAY

Miss McDole Entered Another Suit Against
the Street Railway Company—Judge
Smith Will Severely Punish Those Who
Break the Liquor Laws.

LISBON, July 16.—[Special].—No receiver for the East Liverpool & Wellsville was appointed in Youngstown yesterday afternoon.

When the writ was made out the person who did the writing neglected to take a good look at the calendar, and ordered the company to appear on Thursday, July 15. Now it happens that Thursday was the 16th, and the motion was to be argued on Wednesday. The company took advantage of the trivial mistake, and the motion was not argued, as no one appeared for the company, and the reason was explained. Judge Johnson set next Saturday afternoon as the time. There will be no error in the next writ.

Miss Maggie McDole, who recently got judgment for injuries received while passenger in one of the cars of the street railway, has sued the company and the First National bank, of East Liverpool. The petition claims that the bank holds more than \$950, the amount of her judgment, belonging to the company, and she wants the bank enjoined from paying out any part of it until the judgment has been satisfied.

Sheriff Gill today appointed F. Q. Vones, of New Chambersburg, a deputy sheriff for a term of 18 months.

John Agner, Henry Bentz, John Herst, Henry Weible and H. O. Wunsch, trustees of St. John's Evangelical church, of East Liverpool, today asked permission to borrow \$3,000 to be used in the completion of the building now being erected by them in East Liverpool. They will secure the amount by a mortgage on the property.

Mrs. Rebecca Radcliffe, an aged woman of this place, wants a divorce from her husband, Thomas Radcliffe. They were married five years ago, and have lived but a short time together. She asks that her maiden name be restored.

Oscar Henderson, a Salem saloonist, plead guilty to selling liquor to a minor this morning, and was fined \$60 and costs, to stand committed to the works until the amount is paid. It is evidently the fixed purpose of Judge Smith to put a stop to illegal liquor selling in the county. He stated this morning when sentencing Henderson that he proposed to double the fine until the limit was reached, and then petition the legislature to raise the limit.

Dr. John P. D. John has been engaged by the Epworth Leagues of this city and Wellsville to deliver his famous reply to Robert Ingersoll, the great agnostic. During the short time this lecture has been before the public, it has attracted very wide attention, and has been everywhere recognized as one of the finest, most complete and logical answers that has ever been made in a public address to the arguments of Col. Ingersoll and those who attack the Christian system. The thousands who have heard it, unite in pronouncing this production a great masterpiece in thought and language. Friday evening, July 17, First M. E. church. Admission 25c.

Next Excursion to the Sea.

Thursday, July 23, via Pennsylvania lines, from Steubenville, \$10 round trip, good 12 days, to either Atlantic City, Cape May, Ocean City, Sea Isle City, etc., the bathing resorts by the sea. Don't forget the date, July 23.

Did Not Run Away.

The horses of J. D. West did not run away, neither was the hearse broken, as was published. The item, however, was given by a young man who had to this time proven himself reliable, and the reporter believed it.

More Drilling.

Additional drilling apparatus has been sent to the new field being developed by the Ohio Valley Gas company, near Cannon's Mill. The company think they have a good territory, and are going to test it thoroughly.

The John G. Wooley club will hold its regular session tonight, and be addressed by Rev. C. W. Huffer. It is urged that every member be present.

"Did Man Make God, or Did God Make Man?" First M. E. church, Friday evening, July 17. Admission 25c.

A great many people look healthy and are not. There are many forms of sickness which leave an outward semblance of health. This fictitious health is like a bubble that bursts at a touch. It is like an empty egg shell that the slightest pressure will crush. The outside of the body may look all right long after disease has begun well and doesn't feel well, he had better be governed by the feeling not by the looks. A great many apparently strong and vigorous men collapse suddenly. They have what is known as nervous prostration, and go along persistently day after day, working hard and thinking hard, apparently healthy and sound, day they go home and go to bed and don't get up again.
